

**EXPERIENCE
THE POWER OF
AN INDEPENDENT
LAB PROVIDER.**

 LEARN MORE AT abboptical.com/abb-labs

USING OUR KNOWLEDGE AND EXPERTISE TO DRIVE YOUR SUCCESS.

Our independent lab is here to support both your practice and your patients. By using the industry's best resources, manufacturing technology and a premier product portfolio, ABB Labs is able to deliver customized solutions.

ABB Labs focuses on both you and your patients with:

- Customized digital lenses.
- Lab services, optimized for speed.
- A curated portfolio.
- Live chat support.

AN INDEPENDENT LAB WITH YOUR BEST INTERESTS IN MIND.

CUSTOMIZED DIGITAL LENSES:

We're an independent lab that provides eye care providers with digital fabrication for variations in prescription, measurements and frame designs. Our customized solutions fit your patient's unique needs and lifestyles.

OPTIMIZED FOR SPEED:

We have multiple fabrication lines and lens finishing centers to manufacture and quickly deliver superior lenses to eye care professionals.

VSP CONTRACT LABORATORY:

We're an authorized Unity® distributor lab, enabled for Unity® distribution and manufacturing. We produce the full portfolio of Unity® Lenses and TechShield AR coatings in house. Find us on Eyefnity – New York #0431 and Kentucky #0175.

A CURATED PORTFOLIO:

We offer top brands and cutting-edge technology to provide premium products. As an independent lab, we're brand neutral, so we can provide a wide range of customized solutions – from AR coatings, to lens finishing centers and more. So you can best serve your patients' varying needs.

A BRAND-NEUTRAL SELECTION.

The ABB Labs portfolio is engineered to fit the unique needs of your patients and includes digital single vision, progressive, specialty and occupational lens designs.

Shamir's FreeForm® lens design make it a leader in sports and occupational lenses. The Shamir portfolio includes digital single vision and progressive lens designs for everyday work and play tasks.

Unity® provides an all-digital portfolio incorporating the latest in optics design engineering. The Unity® portfolio includes single vision, progressive, specialty and task-oriented lens designs.

Seiko's patented designs are individually crafted to the patients' exact Rx. The Seiko portfolio includes digital single vision, progressive and occupational lens designs.

Essilor builds customized lens solutions for the best vision imaginable. The Essilor portfolio includes digital single vision, progressive, specialty and occupational lens designs.
